Addison Autogenous Bacterins

Complete Diagnostic Program
U.S.D.A. Licensed Facility
Cost Effective For All Herd Sizes
Excellent Safety Record
Superior Efficacy

For over 30 years Addison Biological Laboratory has earned the respect of large animal practitioners with the most reliable herd specific program available. Our program expands profits and eliminates herd health problems.

Addison Biological Laboratory, Inc. is a Fayette, Missouri based manufacturer and marketer of exclusive veterinary technologies. For over 30 years, J. Bruce Addison, president and founder, has been recognized as a leader in veterinary diagnostics and herd specific bacterin production. The reputable MAXI/GUARD® product line is best known for its *M. bovis* (pinkeye) cattle bacterin among bovine veterinarians and Nasal Vac (intranasal respiratory) baby pig vaccine among swine practitioners. Both technologies are recognized as efficacy leaders and privately labeled for large multinational biological manufacturers and marketers.

Companion animal product offerings in veterinary dental home care, dermatology, otology, and wound care provide medical researched technologies that define today's zinc-based product standards. Marketing accomplishments include a successful export history to over 25 countries and recognition as Missouri's Exporter of the Year Award. More recently, the U.S. Chamber of Commerce selected Addison Biological Laboratory, Inc. as the recipient for its prestigious Regional Blue Chip Enterprise Initiative Award.

Dental Health Solutions

MAXI/GUARD[®] Oral Cleansing Wipes

Recommended for:
 Maintaining Oral Health
 Tough Pet Acceptance Cases
 Pet Owners Who Need an Easy Solution

MAXI/GUARD Oral Cleansing Wipes combine a professional neutralized zinc formulation with an easy to use and pet acceptable oral wipe. These textured wipes provide a gentle mechanical cleansing for plaque and odor causing bacteria. The infused taste-free solution naturally freshens the breath and safely cleanses the oral cavity for both dogs and cats.

MAXI/GUARD[®] Oral Cleansing Gel

Recommended for:
 Advanced Periodontal Cases
 Post Surgery
 Pre and Post Prophy

MAXI/GUARD Oral Cleansing Gel is considered our "professional strength" product and has a long history of being the most complete home dental care product available. Both products can be applied with or without brushing and can extend the time between dental cleanings.

MAXI/GUARD[®] OraZn[®]

Recommended for:
 Maintaining Oral Health
 Tough Pet Acceptance Cases
 Post Prophy for All Pets

MAXI/GUARD OraZn utilizes a taste-free formula that is acceptable to even the most challenging cases, such as cats and small dogs. It is very effective in maintaining oral health after dental prophylaxis.

Exclusive Zinc-Based Skin Care

MAXI/GUARD[®] Zn7[®] Derm/Spray

Aids in the healing of:
 Hot Spots
 Feline Chin Acne
 Post Surgery Wounds
 Foot Pads
 Many Other Difficult Conditions

The MAXI/GUARD Zn7 Derm line provides a non-oily/non-greasy application and does not sting on contact due to its neutral pH of 7. Zn7 contains no steroids or antibiotics. This exclusive zinc-based compound relieves itchy skin and wound areas and accelerates follicular regeneration.

Equine Uses:

Sunburn
 Lacerations And Abrasions
 Post Surgery Cases
 Saddle And Bridle Sores
 Many Other Difficult Conditions

In addition, it does not stimulate exuberant granulation tissue (proud flesh). Zn7 can be used on exposed or bandaged areas.

Day 1 of application

Day 36 of application

Safe and Effective Ear Care

MAXI/GUARD[®] Zn4.5 Otic[®]

Product benefits:
 Controls Chronic Yeast Otitis*
 Safe For Use With A Ruptured Tympanum
 Resolves Itchy Ears
 Non-steroidal/Non-antibiotic
 Not Oily or Greasy/Scent Free

MAXI/GUARD Zn4.5 Otic helps resolve difficult ear cases associated with Otitis Externa while it aids in the healing of the ear canal. Zn4.5 Otic can also be safely used for long-term ear maintenance to prevent future outbreaks.
